Hey Bert,
I know you very well, I seem to have great classmate and cottage.
Remember in Dorvance class.
We are acting funny like "Insult
me". We are very silly to insult Dorvance
and famous cheating. We have a sex
problem all the time. I hope you have
great year and take care of you. Don't drinking
and drinking.

WE BEGIN TO ACHIEVE

It isn't always easy. Sometimes fights, frustrations and misunderstanding get in the way of important sides of life. But then, just when life seems to have no truly happy ending, a friendship forms and takes hold of what could have been disaster and transform dissappointment into tranquility, cheerfulness, achievement and dreaming. Fun times of being with friends, during and after school games, dances, cutting-up in the halls, and learning to laugh about your problems all stay in the memory in later years

This is what learning is about; rising up from setbacks and realizing the value in making mistakes is the feeling of worth that comes from "Makin' It Happen."

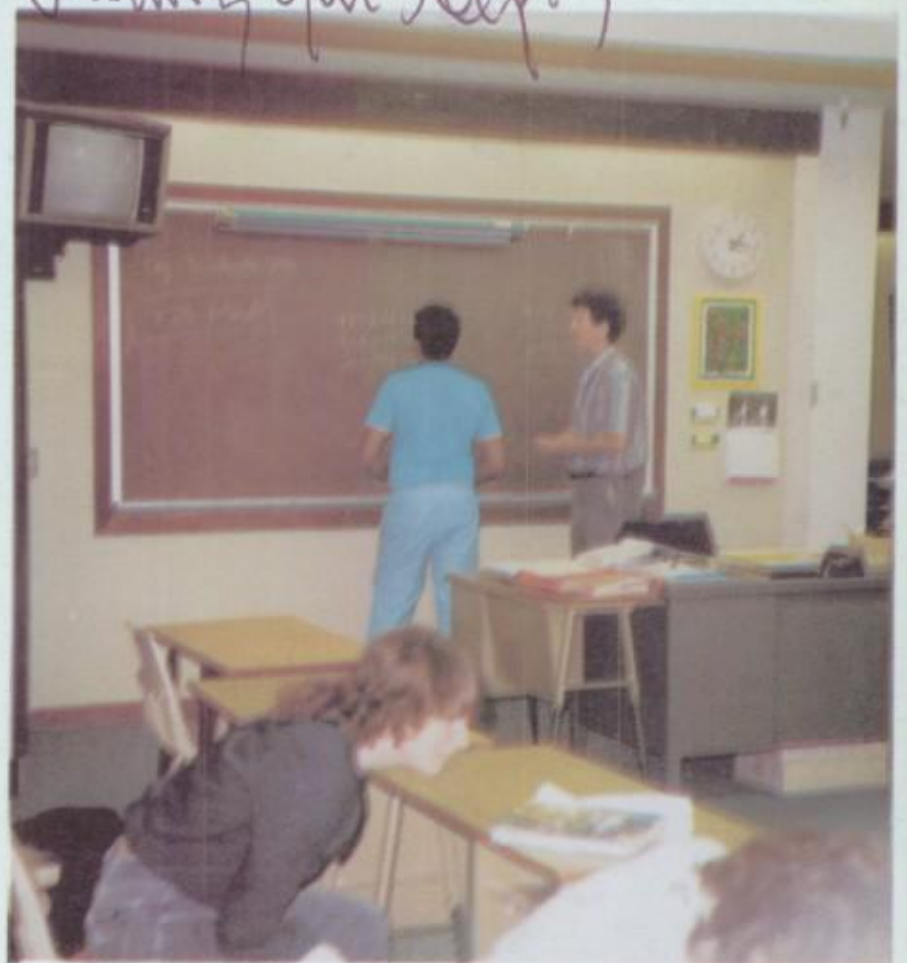

Wishing you sleepers

Co-Editor-in-Chief's Expression

Finally! Here comes 1987 yearbook! We have printed our 1987 yearbook at CSDF print shop for the first time in the seven years in Fremont.

We, the yearbook staff, would like to share our experience working on the yearbook. We started the ideas at our first yearbook meeting. We decided to have nineteen color pages which came out beautifully. Ivanetta Ikeda designed the cover which has hot colors on it. During the second trimester, we continued with page planning and design which was not easy to do. It required lot of time to design and to decide the best way to organize the pages. More photos were taken of sports and activities.

In March, the yearbook work came into print shop. We started to type to be ready to paste up. We have disks that are almost full. Fortunately, we have a top kind of computer which is new this year. It has various type faces to make our yearbook look sophisticated. It took us three months to finish paste up. It took us one month to make the hard covers. First, we pasted up only for colors to send to a color separation place in Oregon. It took five working days for them to be returned. We started to print in color after spring break. It looks so glamorous!

At the end of year, we rushed to collate all pages and put on the cover to be ready to give to you. If not for Mr. Singleton and printers, we would not have finish the yearbook on time. We thank them for their endurance and help. We are relieved to have accomplished our 1987 yearbook.

We hope that you all will enjoy our 1987 yearbook. We enjoyed printing it for you.

Editor-in-Chief's Comments

This year's 1987 — yearbook was printed by C.S.D.F. students and yearbook staff. It was through their effort and support we have reached this goal: to make the 1987 yearbook possible.

I thank my yearbook staff for all their ideas and effort and time they put on the yearbook.

I wish to thank Kathleen Russell, our yearbook sponsor, for giving her time to make this yearbook possible. I also want to thank her for sharing her ideas with me, and giving me full support through the rough times.

I want to recognize another special person who gave up his time and support. This person was always there especially during the most difficult times. He not only gave his time and support, but taught me to use a variety of printing equipment, that gave me valuable experience. I wish to say thanks to him for keeping a positive attitude toward the yearbook. This person is Mr. Singleton from the Graphic Arts Department.

I Thank my yearbook staff for all their ideas and effort and time they put on the yearbook.

I wish thank all the 1987 print class students who worked on the yearbook during their classtime. Thank you again for your cooperation and effort on the yearbook. It's been a pleasure working with you all. Cathy Clarkson has done an enormous job for our yearbook, and has been very patient. I want to thank Mr. Argentos for being our Finance Advisor, the money for the yearbooks came in at the last minute, what a job! I would also like to say thanks to Mrs. VonTickner for being my proofreader. I would like to say thanks to Jeff Firestone for donating all the senior and some staff pictures. Two companies, have donated things for the yearbook. Multigraphics gave us a box of negatives we really needed at the last minute. The General Binding Corporation loaned us the binding machine, so we could put our yearbooks together faster. I would like to say thanks to C.S.D.F. for giving us paper and film supplies. We really appreciate you all for helping the when we really needed it.

Many folks in High School, Junior High School and Elementary have bought the first yearbook ever printed at C.S.D.F. We sold twice as many yearbooks as they did last year. We are proud to have been able to accomplish that.

A special thanks goes to my parents who have given me their full support and enthusiasm in making this yearbook the best ever.

This yearbook is a very special one. It is the first published here at C.S.D.F. in the Graphic Arts Department. We proudly present - Our 1987 YEARBOOK!
